Quick follow up...

We will meet with USCG and IDEM on site in the morning. We will be prepared to take samples, including for fingerprinting. IDEM has indicated the release is emanating from outfalls linked to Arcelor mittal, however they deny it is theirs.

Look for an update after we investigate tomorrow.

Andy

Pollution may be coming from this facility's outfall. We believe further investigation is warranted.  
POC Thomas Barnett O: 219-399-2380, C: 219-313-1605. Thank You!
